

Export trasy do gpx - ENDOMONDO

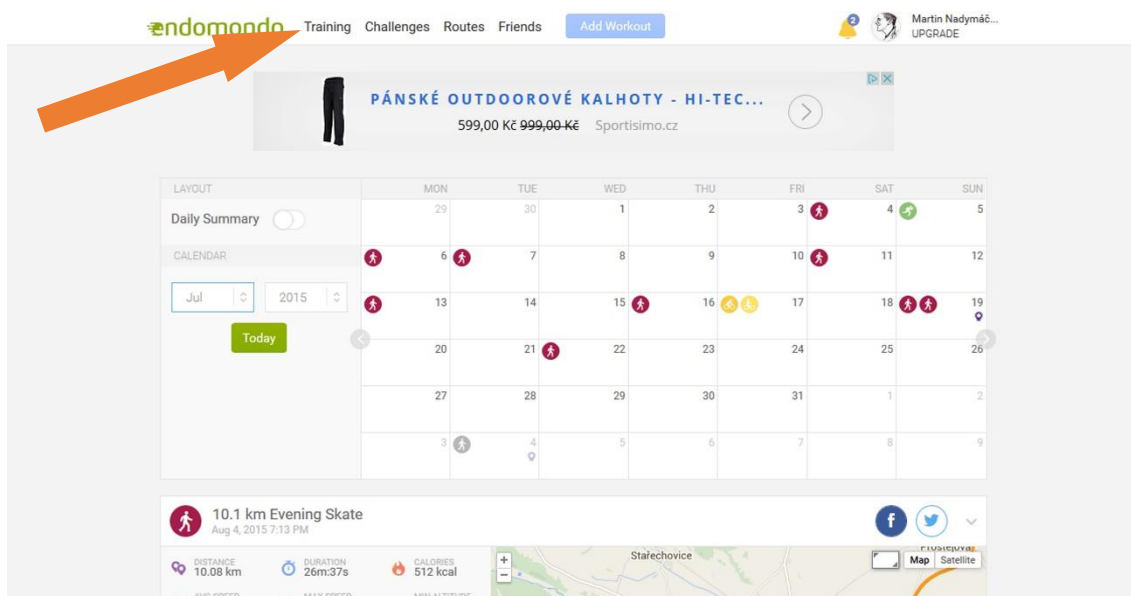

1. Přihlášení uživatele

Přihlaste se do webové aplikace www.endomondo.com svým uživatelským jménem a heslem.

2. Zvolení trasy pro export

Po přihlášení přejděte do Vašich aktivit - záložka Training.

Zvolte trasu, kterou se chystáte exportovat kliknutím na její název.

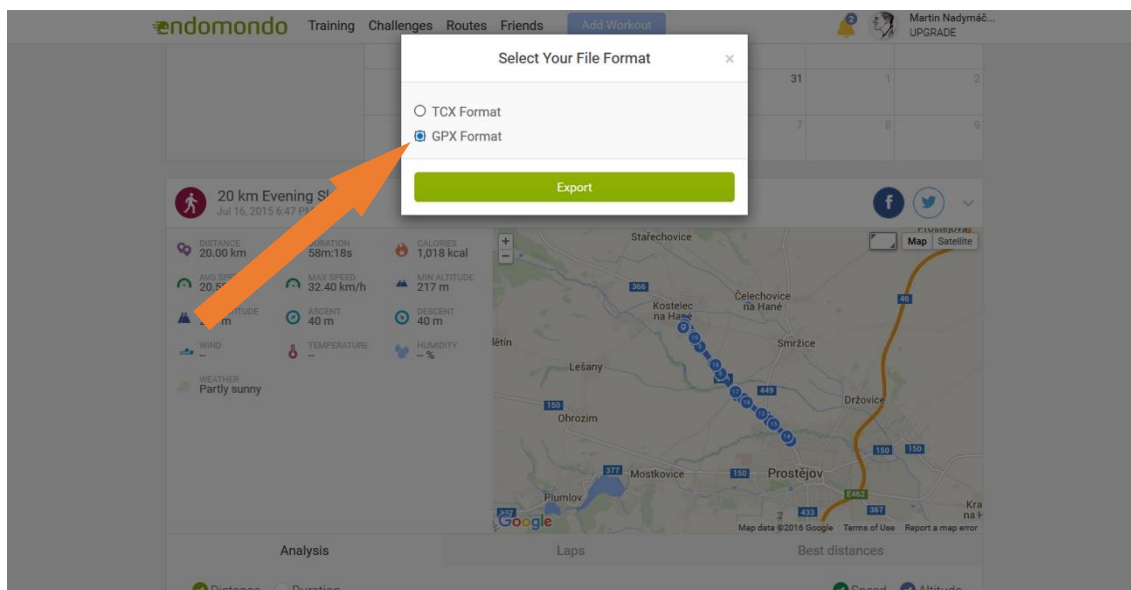

The screenshot shows the Endomondo web interface. At the top, there are navigation tabs: Training, Challenges, Routes, Friends, and an 'Add Workout' button. A user profile for 'Martin Nadymáč...' is visible in the top right. Below the navigation is a calendar view for July 2015. A tooltip for a workout on July 15th is displayed, showing 'Skating - 6:47 PM' with a distance of 20.00 km and a duration of 58m:18s. An orange arrow points from the tooltip to the calendar date. Below the calendar, the details for the '20 km Evening Skate' workout are shown, including statistics like distance (20.00 km), duration (58m:18s), and a map of the route. Social media sharing icons for Facebook and Twitter are visible in the top right of the workout details.

3. Exportujeme trasu

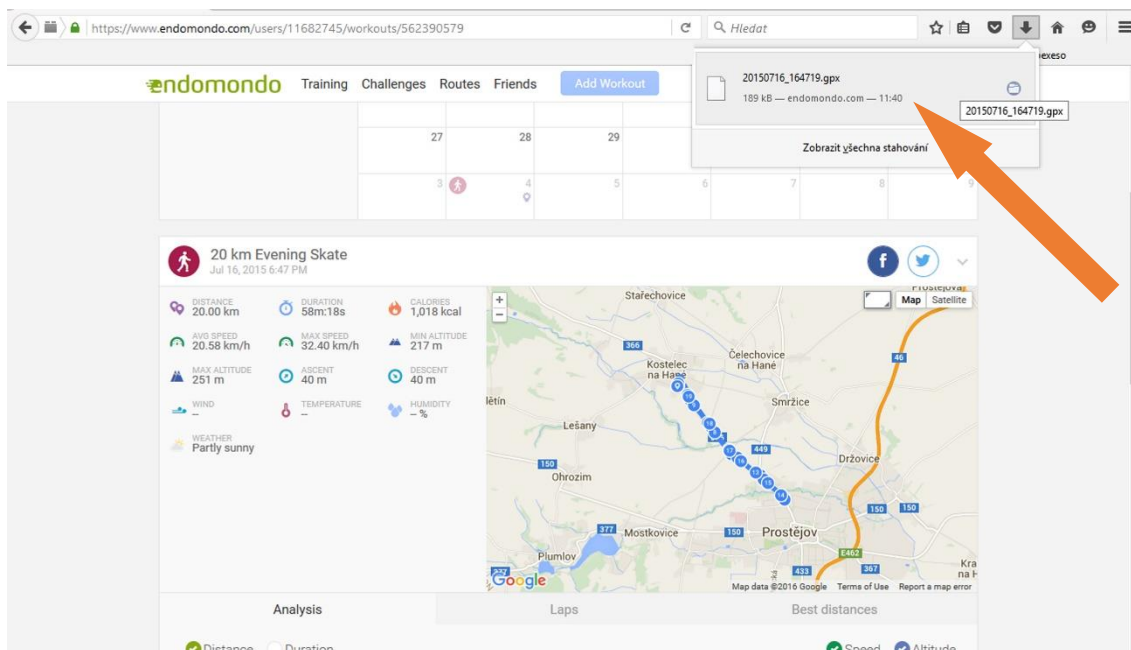

Po otevření zvolené trasy klikneme na pravou ikonku v menu (šipka dolů) a vybereme export.

This screenshot shows the same workout details as the previous image, but with the social media menu open. The menu is located in the top right corner of the workout details section and contains the following options: Workout Visibility, Map Visibility, Edit, Add Photos, Tag Friends, Create Route, Link to an existing Route, Export, and Delete. Two orange arrows point to the 'Export' and 'Delete' options in the menu.

V zobrazeném menu vybereme „GPX Format“ a klikneme na Export.

Ten se nám automaticky stáhne do složky „Stažené soubory“ ve Vašem počítači, pokud jste nezvolili jiné místo pro uložení.

4. Odeslání dat

Exportovaná data odešlete na e-mail zavod@m100.cz s Vaším jménem a datem výstupu.
